## PORTABLE PIPE LATHES

2" I.D. TO 80" O.D.

### TOUGH

Nitride finish to prevent corrosion

Tool slides made of high strength alloy steel with high phos-nickel finish

4140 preheated steel frame design

### SIMPLE

Machine quickly splits to mount around O.D. of in-line pipe

Quick change leg design

One man can easily set up in minutes

### VERSATILE

Optional light weight design

Cutting speed from .002" per revolution to 0.12"

Can be mounted on straight run pipe or elbows

# PORTABLE PIPE LATHES 2" TO 80"

## ATTACHMENTS

### Bridge Slide

Capable of single pointing, counter boring, and deep boring.

### 4" Tool Slides

Fits any size split frame. Slide can sever bevel and hold counter bore attachment.

### 5" Tool Slides

Fits any size split frame. Slide can sever bevel and hold counter bore attachment.

### 6" Tool Slides

Fits any size split frame. Slide can sever bevel and hold counter bore attachment.

### 10" Tool Slides

Fits any size split frame. Slide can sever bevel and hold counter bore attachment.

### 4" Counter Bore Attachment

Standard Counter bore attachment. Mounts to any tool slide.

### Deep Boring Attachment

Bores up to 8" deep.

### Heavy Wall Tool Slide

Used for cutting over 3" wall thickness. Tool is 2" wide for extra rigidity.

### Front Drive Gear Box

Relocates motor to front of machine in low rear clearance circumstances.
